

My wife and I support K-Love radio, and it's only radio station we listen to. Why can't we have something good to listen to and something good for your soul as well? And just think this station may just help someone find their way to God. Please keep L-Love on the air so the whole world can hear the word of God. We need to have this station on the air so the local community can hear what is going on in the world of k-love, all over the airways.

Also k-love is very important because it doesn't have any adds, and that's a real service to the community. People are real sick of all the adds.

I feel k-love is a great service to the community, because it's safe for the whole family all the time.
